RGX Modular Casework - Hospitality Examples

Adaptable Design for the Modern Guest Experience

The RGX Hospitality Collection, encompassing both the credenza and lounge stations, exemplifies the unparalleled adaptability of the RGX system. This versatile collection caters specifically to the needs of hospitality settings.

RGX Hospitality Credenza + Bar Pull Out

RGX - Lounge Station

Crafted for Comfort and Functionality:

○ Lounge Station:

Featuring Wilsonart's Traceless phenolic in Nile Velvet, the lounge station offers a comfortable and stylish seating area. The integrated trash receptacle promotes a clean and functional environment.

○ Bar Option:

The bar station boasts a pull-out element and a worksurface constructed from Wilsonart phenolic. This hard-wearing material ensures exceptional durability, while its aesthetics infuse a touch of warmth and character into your space.

○ Tailored to Your Vision:

The RGX Hospitality Collection offers the same level of flexibility and customization as its lab counterparts. This allows you to design a space that perfectly reflects your unique needs and creates a welcoming guest experience. Choose from a variety of Wilsonart phenolic materials for countertops and fronts to achieve the desired look and functionality.

○ Effortless Reconfiguration:

RGX easily adapts to your evolving needs. Modify or expand your layout with minimal disruption, saving you time and money in the long run.

○ Seamless Integration:

Integrate RGX seamlessly with your existing furniture, creating a cohesive aesthetic.

○ Quick Installation:

Reduce downtime with RGX's easy bolt-together system. Its modular design allows for a faster and more efficient installation process, going from weeks to days.

Benefits

Flexibility to adapt to changing needs

Seamless integration with existing furniture

Depreciates like furniture not buildings

Fast and efficient installation – hours vs days

Designed and build in Austin, TX

Finishes

Powder Coat Finish Options for Frames and Steel Panels

Accessories

ADA compliant knee panels and base cabinets available.

Fronts Material

Door & drawer fronts are available in powder-coated steel, 0.75" phenolic, or edge-banded laminate. Steel fronts match frame color by default, but custom combinations are possible. Ask your sales representative for available finish options in phenolic & HPL/LPL. Lead times subject to change.

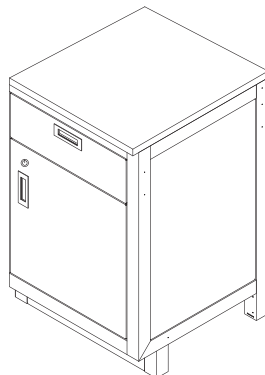

Pulls

Solid machined aluminum wire or flush pulls with 4" nominal width. Available in matte clear or black anodized finish. Wire pulls are standard with phenolic and HPL/LPL fronts. Flush pulls are standard with CRS fronts.

Locks

5-Disc tumbler locks are offered on all RGX models.

Who is Formaspace?

Formaspace is an American manufacturer of lab, commercial interior, and industrial furniture, located in Austin, TX, with experience that spans over 40 years. Our focus on innovation, efficient solutions, and cost-saving manufacturing processes has solidified our reputation as a trusted and unique partner in the industry for mass-produced, build-to-spec products with on-time and on-budget projects.

Formaspace designs solutions for any type of workplace environment and embraces opportunities for collaboration, catering to diverse needs in life sciences, healthcare, education, industrial facilities, and commercial interior applications.

We started our journey in the laboratory & industrial sectors in 1981.

There, we learned that only build-to-spec solutions satisfy the client's vision, completely. At the time, however, custom furniture manufacturing was expensive and meant longer lead times.

Born from the same innovation drive that animated our Silicon Hills (Austin metropolitan area), we set out to advance our technology and streamline our processes, bringing these costs and lead times down.

We quickly became one of the fastest-growing companies in the contract furniture market. Now, we have become a trusted manufacturing partner to many influential clients, dealerships, and A&D firms nationwide.

Our team is led by true Austinites — artists with a vision. And our vision is grounded by the best engineers and craftsmen in build-to-spec furniture design and manufacturing. Together, we created differentiated, successful designs – on time and at the lowest possible cost.

What Makes Us Unique?

At Formaspace, we seamlessly integrate our expertise in life sciences and corporate spaces with precision in mass-customization, promising an easy collaboration process to create durable, all-American made furniture for any lab, commercial interior or industrial facility project.

100% American

Proudly American-made and sourced, with headquarters and manufacturing in Austin, TX, and shipping worldwide.

Mass Customization

Industry-leading custom capabilities and infrastructure offer build-to-spec furniture at any scale with the ability to handle multiple large-volume orders without compromising quality or cost-effectiveness.

Material & Design Cohesion

Experts in materiality creating cohesive designs concepts that carry through on-carpet to off-carpet.

Short Lead Times

Formaspace achieves short lead times through in-house manufacturing, efficient processes, sourcing raw materials only through American suppliers, and strategic inventory management.

Hospitality Experts

A team of experienced designers and engineers who are adept at creating innovative and ergonomic furniture solutions that promote functionality, efficiency, and productivity since 1981.

Sustainable Practices

We strive to minimize our environmental footprint by using eco-friendly materials, optimizing manufacturing processes to reduce waste, source locally whenever possible, and offering products that are designed to last.
